Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 February 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1,4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Anderson et al (6,840,658).

Anderson discloses a lower portion(22), an upper portion(27), said lower portion having at least one lamp to illuminate the space there beneath, one or more side panels on one of said portions for supporting at least one advertising sign(figs 2-3). Anderson does not disclose the upper portion having at least one lamp. It would have been obvious to one of ordinary skill in the art at the time the invention was made to implement a second light source in the upper portion of Anderson since it has been held that mere duplication of essential working parts of a device involves only routine skill in the art. *St. Regis Paper Co. v. Bemis Co.*, 193 USPQ 8. Furthermore, a second light source would be purposeful for providing a greater amount of illumination to the advertising sign; at least one of said side panels is removable, the lower end of said removable side panel fitting against a rail formed on the top of said lower portion to, in use, hold it in position (fig 3).

Allowable Subject Matter

3. Claim 7 is allowed.
4. Claims 2,3,5,6 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: The prior art cited does not teach an upper dome shape above the lower portion, the support member and opaque side panels extending between each pair of support members and curves upwards towards a peak of the dome shaped upper portion, one of the side panels being removable. With regards to claim 7, the prior art cited does not teach the dome shape upper portion above the lower portion and having a curved support tube upstanding at each corner of the lower portion to meet at a peak and form a support structure, the retainer on each support tube, the upper portion having at least one lamp to illuminate each advertising sign, a top wiring suspension box at the peak.
